Claire Heartsong experienced a life-transforming physical encounter in 1987 with the ascended master Saint Germain, and a year later, Anna, the grandmother of Jesus, appeared to her in meditation and told Claire that she would like to share her story with her. From that day, Claire began receiving telepathic messages about Anna's life, which Claire recorded sporadically. Over the course of four and a half years, Claire recorded the messages she was receiving, which

has come to form the book Anna, Grandmother of Jesus. Â

I am always a bit leery reading channeled works on subjects about which I've read other channeled works. I worry that there will be contradictions calling one or both into question. Such was not the case with this book. Anna's description of the various Essene sects (there were several) and their beliefs were inspiring. We've known that Yeshua (Jesus) spent years in Egypt and also India, but I was surprised at the extent of Hebrews being initiated into secret societies there and in Britain. Anna's long life put the times before, during and after the life of Christ into perspective. Her story showed that while their lives were outwardly primitive compared to ours, they were inwardly quite advanced. As one who has always "known" that modern Christianity has missed the boat by worshipping Jesus rather than following his full teachings, this book was confirmation that his life was meant to show us all how to birth the Christ Consciousness inside us all. So many of the practices and beliefs of the ancient Essenes mirror the traditions of aboriginal societies around the globe even today. Do they remember something we have forgotten?

This book fills in many Biblical gaps for me. Loved it!

Having read this book several times, I recommend it to anyone looking to further their understanding of our times and lives.

Excellent book. Make Jesus real. Want to read the next book.

I love this book

Please give yourself a gift and consider this book. Take a journey with an amazing family and history will come alive for you in a most amazing way. If history could come alive for us the possibilities could change the world as we know it.
