I got this for my nephew (1st grade...I think) because he is crazy about that mutant moth from Fukushima. My sister wouldn't let me get him Godzilla vs. Mothra yet, so this was a close second. He seemed to really like it, so yea, five stars.

My husband is a Bioinformaticist and wanted to give this to my niece. My brother and SIL loved it. My husband has decided we will be getting these for our future children.

I got this book for one of my friend's kids. The drawings are super cute and adorable. Hopefully my friends will learn a lot from the book too haha!
