Customer Reviews

We bought it for my daughter who was Einstein in her 3rd grade wax museum. She read it, for fun, until she was an Einstein expert. Great little book!

I absolutely love this series. Perfect addition to any homeschool library.

My 10 yr old reads every one of these books that he can get his hands on!

Bought for the grandkiddos, they love them, thanks!!!!

Perfect book for my science loving kiddo!

These are the best nonfiction books for 3rd through 6th graders for AR. As a teacher and a parent, these are always my first recommendation to meet their AR goal. We require 3 nonfiction books per 9 weeks and these can be read in just a few days. They are informative and the kids overwhelmingly enjoy them.

great books for my kids to read on their own!

My students love these books!
