One star for the colorful cover. However, it's a softcover, so when you're filling in information you constantly have to be holding down the book. Using the left side is nearly impossible. I picture myself writing out Christmas Cards and having to hold the book open instead of holding down the card and envelope. Puts a damper on it the job, for sure. Not worth the money.

It has no tabs, so therefore it is useless to me. Looks nice though for a book, not an address book--as such I would be eternally hunting and folding pages over. I foresee this becoming a big mess quickly.

Was disappointed that it is a soft covered book...description failed to state this. Just assumed it would be a hard cover.

Don't know if I missed it in the description or if it wasn't mentioned, but I had no idea the book was

soft covered. Since that definitely affects the durability, I never would have bought it.

I cut the edges if the pages shorter so I could put stick-on alphabets on the edges so that my mom could more easily find the addresses and phone numbers of family members.

I wish it had tabs, but there is lots of space to write and lots of categories that are all ready entered.

While it does have an eye appealing cover design, it is actually very cheaply made. No tabs for the various letter sections, plain paper cover, horribly laid out entry blocks. Very cheap paper stock. Will NOT buy again.

It is what it is
