The Gardener (Sunburst Books)

Synopsis

By the author-and-illustrator team of the bestselling *The Library* Lydia Grace Finch brings a suitcase full of seeds to the big gray city, where she goes to stay with her Uncle Jim, a cantankerous baker. There she initiates a gradual transformation, bit by bit brightening the shop and bringing smiles to customers' faces with the flowers she grows. But it is in a secret place that Lydia Grace works on her masterpiece -- an ambitious rooftop garden -- which she hopes will make even Uncle Jim smile. Sarah Stewart introduces readers to an engaging and determined young heroine, whose story is told through letters written home, while David Small's illustrations beautifully evoke the Depression-era setting.

To ease the Depression's burdens on her family, an irrepressible girl spends the summer with her dour baker uncle in the city. In a starred review, PW said that this Caldecott Honor book "speaks volumes about the vast impact one small individual can make." All ages. (Mar.) Copyright 2000 Reed Business Information, Inc.

Excellent little daily companion book. I add it to my daily ritual. It's always fresh, challenging, and filled with profound suggestions and truths. Love that the two women authors remain anonymous; they only wanted to share God's Truth. This was given to me as a gift, and I have bought as a gift and will continue to buy for many friends. Highly, highly recommend!

i had received mine this week, and it was adorable, had high quality material's, looked exactly as the picture you see on this page, i knew it was 12 inches but it still was bigger than expected XD. my only complaint is that the blue area on the coat near the bottom is a bit cut off. like not cut properly. it's not that noticeable so i don't mind. XD have a great day

Powerful and inspiring poetry from one of America's greatest poets.

she was very happy with it, made well and looks good

What a great product! Holding the phone securely.No need to re-position the screen constantly in driving (but easy to re-position if need to), great for GPS navigation use. I will recommend it to everyone I know.I particularly like the fact that the metal shim won't hurt my credit cards,and that the shim is so thin, it does not affect the phone case at all in size or weight. And the phone works exactly the same with the metal shim installed. I love everything about this product and wish I had found it years ago.

As described. Love the craftsmanship & detail. Has enough room to make it your own.

Sticks amazingly well. Bought this for a trip to the east coast where the plan was to use the phone for directions..and the small magnetic card fits perfectly well inside the clear case and it binds so well with the other part that I was amazed.

Great quality and fast shipping!
