Error Australis

Synopsis

Australia is a proud country full of proud people, but exactly what are we proud of? Comedian and history buff Ben Pobjie delves deep into Australia's past and has a good old rummage amongst the nation's personal effects. With wit, perspicacity and a healthily elastic attitude to historical accuracy, the great saga of Australia is unravelled like an old woolly jumper. For anyone who snoozed through history class at school, this is the book to get you all caught up.

Customer Reviews

Few things crack me up more than a pisstake on our nation's history, so this book had me pmsl from the start to the very end. Very enjoyable. I only wish it was longer. Thanks for the laughs Ben.

A humorous review on how we got here. An entertaining read but not much use as a serious historical reference. Luckily, I didn't buy it as a reference.

Dangerously funny. I dont often laugh out loud but this one really tickles the funny bone.

this is both laugh out loud funny and a strangely depressing

A humerous take on Australian History with a lot of credibility
