There is no way that ALL of these reviews are legitimate. I can't believe I wasted money on this book, I'm returning it right away. I have been a LONG time reader of the 'Living Well, Spending Less' blog, and there are blog posts that I read over and over (especially about minimalism with children, the No Spend Challenge posts, and more) and I share them with family and friends. I almost could not believe this book was from the same person. This is clearly more of an auto-biography than an informational book on saving money. I am FRUGAL, and try to save money anywhere I can with 5 children. I was so disappointed to read in almost every single chapter about how she had to break her habit of going on \$500 Target shopping sprees, give up the expensive Starbucks lattes, and that to this very day, she still overspends. Being frugal is making your own coffee from home, NOT going to Target (most expensive place ever, for everything) and saving money in every category. I also was disheartened by her constantly mentioning that she still to this day overspends. It's like reading a book about a recovering alcoholic, who beat his addiction, only to find out he MOSTLY beat the addiction, but still drinks from time to time. That is not inspiring at all. The bits and pieces about saving money were mediocre at best. I have been doing no-spend challenges for years, both through online Facebook groups, with Dave Ramsey fellow followers, and with girlfriends and my own husband. There was literally no helpful information about that at all. Instead of giving the reader lots of information about how to chart or track your 'no spending', ideas to fight the urge, ways to use things at home and not spend, it simply outlined the idea, and then went back to talking about her story on how she tried it, still does, but mainly still spends. SO SAD. I'm also sad to find out that when she started the blog, it was only to write about money saving ideas to pull readers in, and while she did it, learned to help herself with her spending and save money. So the main reason she started the blog was to make money, so she could spend it, but learned a thing or two along the way (but yet, to this day, still overspends). Overall, I was so disappointed. I had to force myself to get through the whole thing, and couldn't believe it was even published. I LOVE her blog, and I guess I just need to print the blog pages I love and put them in a binder, and try to forget that the woman behind the articles really only started writing for the money, and still to this day doesn't stick to what she writes. I get that no one is perfect, but I seek encouragement from people that LIVE frugal, every day, in every way, pushing their self control to have financial peace for themselves and their families. Not people that write about it to only make money off of it. I would never recommend this book, even to a beginner. There is WAY more helpful

information online, and in other books. A good book for going minimalist is 'The Joy of Less', I'm reading it for the 5th time now, it's amazing. And for saving money, anything Dave Ramsey. For organizing, recipes, meal plans, I turn to my online Dave Ramsey Budgeting groups, or search blogs for specific things. Can't wait to go to her blog again to read, but this book is going back!!

As a stay-at-home mom of two and the bill-payer of my household, I could not relate to this book at all. The author is all over the place with stories and Bible verses, that don't even match up to each other or to the topic of each chapter. I am an easy sell on a book - I liked this one because of the title and the cover. The title of this book should be: "Long-winded stories about the mistakes I made in my quest a designer lifestyle." I can't relate to the author's life at all. She has some social anxiety issues that had her moving her family to new cities frequently, and then the kicker was when she said her husband became a stay-at-home dad so she could BLOG. DO WHAT? And I am to take FINANCIAL advice from this woman? She also babbles on and on about her lack of confidence as a writer - which seems strange in a PUBLISHED book on the topic of saving money. She's all over the place - the chapters start on one topic and veer so far off course with gossipy stories about her life - dropping names, businesses, designer labels. So strange that gossipy stories are followed by these "deep" Bible verses that confuse the entire message. This was a waste of \$12.

Liked the female perspective. Was familiar with the \$ saving tips mentioned in this book from well known male authors, but I liked her voice. The lists (QR scans) are helpful too. I could relate to the struggles the author writes about in this book somewhat, both the internal and external conflicts that accompany a life of excess and accepting the realization you need to make changes no matter if they are by choice or forced upon you. It's kinda a autobiography of her life which gives a personal touch. There's not really any new \$ saving secrets in here. Would be helpful to some, especially those new to budgeting.

There are some good hints and ideas for saving money. Could have had a bit more depth. But all in all good read. Better for a young couple starting out.

While I do not have a problem with religion, the incessant Bible references in a self-help book about spending less money are annoying. I purchased the Kindle book based on the -very- brief sample provided and am hoping I can deal with the constant verses (and comments that only 'God can save me' from spending) while trying to learn a thing or two about being frugal. I'm only 11% into the book

and am hoping the power of prayer is not the only advice she plans on offering her readers. Pretty sure I can't return a Kindle book, so I guess I'll be sticking this one out. Buyer beware: read the reviews (both positive and negative) before you buy.

Boring

This book was not for me. Long winded and scattered. It seems to work for some people but to me the advice was common and not anything new.

This book is more about living by God's word to enrich your life. Since I am a non believer, I had a difficult time with the concept. I didn't learn anything I didn't already know.
