Blogs have the potential to be unbelievably powerful. Never in the history of mankind has such a valuable, simple, and inexpensive tool existed for exploring topics, sharing ideas, connecting with others, and building businesses. I never dreamed that blogging would lead to more personal and business opportunities, financial success, and clarity of mind and purpose than anything else in my life—but it has. Blogging, combined with the power of social media, is one of the most powerful tools for massive exposure that exists today—and it's virtually free. Let me put it this way: Everyone needs to have a blog. The potential upside of having one is just too great to ignore. Not only will a blog offer you opportunities in all kinds of unexpected and immeasurable ways, the writing will force you to organize your thoughts and analyze topics in ways that wouldn't be possible otherwise. In other words: The benefits that come from blogging will surprise you over and over again. In this ebook I'm going to teach you how to create a professional blog, as well as how to strategically pick your blog topics and write your blog posts (based on keyword research). I'm also going to teach you how to best monetize your blog, promotional strategies that will drive traffic to your blog, and how to create a growing and loyal readership. I also include links within the ebook to supporting video lessons for extra clarity. What's great about what I teach you is not only the income level you will accomplish if you follow through creating your blog, but all that you will learn in the process. The skills you learn in this ebook will enable you to build all kinds of online businesses and open the door for all kinds of entrepreneurial projects you may have. Not only that, you will be able to evaluate business ideas much more intelligently once you've gone through this whole process. This is because you will understand the fundamentals of keyword research & analysis, traffic & lead generation, social & affiliate marketing, monetization & conversion testing, and traffic analysis. These skills will help you immensely in ANY business you ever decide to start (online or not, passive or not). So why wait? Learn how to start blogging today! After all, the longer you wait to start, the more money that is being left on the table.

Customer Reviews

Buy a domain name. Sell ads or use google Adsense, pick a topic, blog about it. The end. This is not a book, it's a collection of the writer's prior articles (he says so up front). So, many paragraphs are repeated (some more than a few times!). There is no consistency or flow. And he seems hellbent on convincing you to become a web developer--because that is how he made his money. Oh, and maybe blog a bit, whatever, but the real money is in web development. Did i mention to sell your web development skills for \$500 a pop? Oh, and dont forget, you can make money doing web development. And on and on he goes. Don't make the same mistake I did, thinking its only a few bucks. Save your money, and your time reading this dribble.Oh! And he repeatedly tries to get you to click on links that no doubt make him \$ for each click!

As a primer for aspiring writers I would look elsewhere.If you simply want to make money from home, without regard to content quality it was ok.The vast majority was self promotional in nature.

I found some good ideas here and more importantly, some easy ways to implement them. The repetitions made an otherwise easy read a bit sluggish, but the gist came through so all-in-all, well worth the time.

I enjoyed this book so much on Kindle that I ordered the paperback so I had it for easy reference. This book and the suggested videos really take you step by step on how to start, organize and promote a blog. Very easy to follow and do. I am really enjoying the process and the writing. Thanks Mike..
