Grade Level: Kindergarten - 3

Customer Reviews

The book is perfect for younger children. It is difficult to find factual books on geography for teaching this age group. This book and the entire series are a winner. It has few words and great pictures. A must for your units on the continents. The series is a wonderful resource to use in the classroom.

These books are wonderful for early elementary students. So many times non-fiction is too easy or too hard. This series has just the right amount of text per page to make them great for read-alouds with my kindergarten class.

I used this book to help teach a class on geography. Children enjoyed the pictures and the fun facts.

Bought them all-- perfect for my 4 year old who loves maps and learning about countries!
