Garrett Sutton is an attorney with over 20 years' experience in assisting individuals and business to determine their appropriate corporate structure, limit their liability, protect their assets, and advance their personal and financial goals.

An excellent example of the helpful financial audios produced by Robert Kiyosaki's Rich Dad company, Garrett Sutton's can-do lesson is an excellent lesson on how to rise above debt. He provides a largely sympathetic lesson on why people dig such holes for themselves and why creditors let them. The information is nicely condensed and includes illustrations that people at all intellectual levels will connect with. The writing and the matter-of-fact reading are proactive--he doesn't celebrate or condemn anyone's goofy money decisions. Know yourself, get your attitudes

and behavior under control, and then use the author's formulas and action steps to wrestle your credit report, account by account, back into something respectable. Everyone should read this! I know most people won't read it until they are already in debt, but if you can read it before, that would be great as well! My advice to anyone with no debt: Avoid it like the plague! It will limit your options in the future. Don't go into debt because society tells you its the thing to do. Be your own person. Use debt responsibly! Good debt vs bad debt < Key takeaway from this book.

Bland, boring advice that is completely lacking in helpful specifics. If you want 200 pages of "do good things, not bad things", this book is exactly that helpful. I ended up getting out of debt, securing my finances, and buying a house; but nothing in this book was in any way shape or form helpful towards any of those ends.

Good book and definitely very relevant to today's many problems of financial insolvency that many are plagued with. It is part of the Rich Dad series of books and will teach you alot.

This really works. I have only one more bill to pay off then I am out of debt. Yeah!!!

I enjoyed learning the information. It was put in a way most anyone can understand. It made sense to me. Makes me want to read more.

I chose this book because I thought I might need it. Boy was I ever right. This book is now my financial bible. A recommended read for everyone!

Great

I've been reading this book and it is chock full of good information that just about anyone can use if they are in debt. HIGHLY RECOMMENDED!
