## Customer Reviews

This book is a great supplement to an introductory or intermediate college/university PR course. It is an easy read with great excerpts, contexts, and miscellaneous aspects that aid your reading and understanding. A lot of real-world examples are available which are most helpful to someone that has little experience in the real field. Furthermore, the book hits on very good points in an organized and structured manner. I liked the book so much that I have decided to read into it further after

my course has ended and study more of it for tips, suggestions, and practice.

Heavy on strategy and high-level principles. I wish there were more on tactics and their execution.  
Very light on social media.

As promised. Studying for a certification. Good price.

One of my favorite books for my college classes this semester! Book came in looking new.

Nothing special about this book. Was purchased for a class. Has good information related to help anyone interested in Public Relations get a better understanding of it.

perfect condition and cheaper than the normal version (this is global but has no change from regular version)

I bought this in preparation for the APR test. It has a lot of good information and I use it regularly.

I am so happy with this book. It really made my semester. I am using it for teaching a PR class in Mexico, and it is just what I needed!!!!
