Redouté Flowers Coloring Book (Dover Nature Coloring Book)

Synopsis

Hailed by botanists for their scientific accuracy and by lovers of fine art for their peerless beauty, the botanical illustrations of Pierre-Joseph Redouté appear in reproduction in millions of homes all over the world. This exquisitely rendered, ready-to-color collection features finely detailed adaptations of floral illustrations created by the great botanical artist at the behest of Empress Josephine, who maintained extensive gardens at her grand estate of Malmaison. Included here are 30 detailed, accurate illustrations of daffodils, daisies, peonies, sweet peas, violets, roses (Redouté's specialty), and other flowers. Colorists can bring their own conceptions of color and hue to these superb illustrations, or they can use the cover illustrations for inspiration and guidance in faithful re-creations of the master's work.

Customer Reviews

The flowers are very nice pictures and large enough on each page to work on shading, etc. At the bottom of each page it shows the name of the flower. Colored pictures of each page are on the inside front and back covers to refer to. Very educational and my daughter who is almost 12, likes flowers and is artistic loves it. This was our favorite Dover flower coloring book.

There are 30 pictures and they are nice. The inside cover has a color picture of each one. The downside is that the pages are printed on both sides. If you want to do any of these with watercolor pencils you would need to make copies.

This is a fun coloring book, I ordered it because some days I deal with eye strain from staring at a computer and so I can't really use very detailed coloring books to relax. This one is good because the drawings are big enough for me to color comfortably. The flowers are also nice, there are lots of different arrangements to color. The only downside is that markers may bleed a bit and there are drawings on both sides of the pages. So, it's better with colored pencils.

Unlike most Dover books, the pages are printed on both sides. Even if you color only one side, you can see the reverse side through the paper.

bought these for my 86 yr old mother who likes to color to keep herself busy. he likes these books because they have colored pictures of what the flowers look like colored in the back so she knows what color to color them. is the only place i can find these adult coloring books at a reasonable price.

Not on good heavy quality paper! Especially when the pages are double sided! They need to be at least one coloring picture per page! You do get a small picture on the back cover of each flower.

Unfortunately, printed on both sides of pages. But I only use pencils so that's OK. "I'm not sure how heavy the paper should be because this is only my second book, but it's not as heavy as the 121 gram papers I just did. That's OK because that paper had a heavy texture : Artist's Loft, Art for Everyone, Still Life Floral Designs. Beautiful !

Exquisite coloring book full of famous paintings of flowers by Redoute, who was to flowers what Audubon was to birds. Gorgeous originals on inside covers should you wish to duplicate his outstanding work.
