This Time For Kids Plants booklet has become a great source in our homeschool classroom this year. Teaching our son about the process of planting, fertilization and harvesting has been even more fun when we have been able to include lessons on specific plants along the way! Definitely a

great addition to any homeschool classroom for younger kids fun and simple learning.

Great

I teach kindergarten, so I wanted a book about plants that are informative and have excellent visuals that will capture the attention of five/six year olds. This one is it.

My 4 year old son loves this books and carries around everywhere!

Great photographs! My students loved this book.

Great book!

Super cute book, we used this to teach a class about growing and maintaining a garden. For children ages 3-7.

I am please
