Customer Reviews

I bought this for my girlfriend to learn the German language. As far as I know, this is the official material to learn German for exams like A1, A2, B1 and B2. I really see a lot of improvement in her German skills in the last couple of months and think it's a good way of improving your personal German language level. I can highly recommend this Audio-CD, which should be bought together with the work-book and the course-book.

I have only recently used .com and I am very happy to have done so. The Themen neu CDs arrived as promised and in very good condition. Will use again with no worries.

I received the book 30 days after my request and in a perfect state. I would really recommend Themen neu 1 as a text book for those who want to learn German language and of course as an internet store to buy it. Marcos Andre de Miranda Pinto

For me that I'm beginning to learn German it's very important to have a good material for improving my listening skills. Themen 1-2 CDs will give you these opportunities. All the situations are very funny and are the ones that use in the day by day living. If you are learning German and if you are using the Themen 1&2 Course books you MUST have these CDs. If you are not using Themen 1&2 course books it doesn't matter. CDs will be very useful to you.
