Customer Reviews

Former music teachers and pioneers in the children's audio/video market, Pamela Conn Beall and Susan Hagen Nipp have been creating entertaining, wholesome products that are both fun and educational for over 25 years. --This text refers to an out of print or unavailable edition of this title.

I have the older version in paperback with the cassette and I love it! I ordered the newer format, board book with CD, and the book is poor quality. The damage done when I received it was from poorly packaging (not wrapped at all in a box where it was shuffled around in transport). However, the way the book is constructed, I am positive it will not last long with my toddlers. Plus, the purple color, as it appears on the purple page, looks more blue than purple, so I found it to not be educational. However, I love WEE SING and I love the music. I will continue to buy wee sing, I just find this particular edition to be less than average.

I bought this book because of the CD and it didn't come with a CD. I am very unhappy

I am on my 3rd kid and I still love singing along to this amazing CD. Kids and adults never tire from

listening and singing along to those fun songs about the colors - red wagon, orange pumpkin, piggy pink, etc.

We love this book and we are purchasing it a second time, because my little one tore it. We still listen to the fun music and are missing the illustrations. So I ordered it again and will get it out only for time with an adult. My 2 year old loves it since her first birthday!

My two-year-old and I just love this book and the other Wee Sing & Learn titles. The songs are pleasant, well-produced, and memorable. They are even better than the Wee Sing CDs that come with the small softcover books. The big board book is easy for little hands to hold and explore. A great product all-around.

Son Loved the music. He knows it by heart.

great!

I have a 2 1/2 yr. old & a 14 mo. old, and they BOTH love this book & cassette! My 2 1/2 yr. old particularly enjoys the sense of independence she gets when she puts the cassette in her player (cassette is included w/ the book, but not the player - you have to get that on your own!) and begins the story from front to back. The illustrations are gorgeous & are kept simplistic for young, absorbing minds. She sings all day long, oblivious to the fact that she's learned so much! This is our first "Wee Sing" and I'm searching .com now for more.
