Cowards: What Politicians, Radicals, And The Media Refuse To Say

Synopsis

COURAGE > COWARDS As we approach the most important presidential election in America's history, something has been lost among all of the debates, attack ads, and super- PACs - something that Americans used to hold in very high regard: THE TRUTH. Glenn Beck likes to say that "the truth has no agenda" - but there's another side to that: people who have agendas rarely care about the truth. And, these days, it seems like everyone has an agenda. The media leads with stories that rate over those that matter. Politicians put lobbyists and electability over honesty. Radicals alter history in order to change the future. In Cowards, Glenn Beck exposes the truth about 13 important issues that have been hijacked by deceit. Whether out of spite, greed, or fear, these are the things that no one seems to be willing to have an honest conversation about. For example: How our two-party political system often leaves voters with no good options. How extremists are slowly integrating Islamic law into our society. How progressive "religious" leaders like Jim Wallis are politicizing the Bible. How the cartel violence on our border is far worse than people realize. How "Libertarian" has been intentionally turned into a dirty word. How George Soros has amassed enough money and power to influence entire economies. In some cases, the truth is out there, but people simply don't want to hear it. It's much easier, and certainly a lot more convenient, to keep our blinders on. After all, as a quote attributed to President James Garfield made clear, "The truth will set you free, but first it will make you miserable." Miserable or not, the truth can no longer be something we hope for; it must be something we live. When courage prevails, cowards do not - and this book was written to ensure that's exactly what happens.

Book Information

Audible Audio Edition

Listening Length: 10 hours and 12 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Simon & Schuster Audio

Audible.com Release Date: June 12, 2012

Best Sellers Rank: #78 in Books > Audible Audiobooks > Humor > Political Humor #728

in Books > Humor & Entertainment > Humor > Political #2096 in Books > Audible Audiobooks > History > United States & Canada

Customer Reviews

This book exposes the fallacies of the current political environment with all there talking points It shows the depth to which the Press and Talking heads will go to shape public assessment . I suggest the reader inform them selves from the public watering hole(T.V. or News Papers) and then check against the facts from personal observation or from others who ask the hard questions of the Spin Doctors. Keeping a open mind on information on booth sides the pass it by the decency test of your own spirit. Its work to find the truth so don't take a easy route to the truth.

This is a very important and relevant book that all should read, especially the chapter related to education. Glenn Beck is one of the few voices that are crying out loud the problems American society is facing. As a foreigner and living abroad (in Brazil) I cannot understand how Americans are falling for the same old stories that were proven wrong everywhere else. This should be a wake-up call for you Americans. Just look at the rest of the world. Maybe there is still time!

Once again, another really good read. This story holds your interest and is hard to put down. It is a great story about the service our faithful friends take their job seriously and how faithful they are. It is a great story and a must read

My father loved this conservative book. Beck is an excellent conservative book author!

Great book with awesome facts and information that unfortunately the public is unaware of and the biased media refuses to print and our public officials are too concerned about their own positions to fight for the good of the American people.

Want to know what your politicians are actually thinking and plotting....read this!

This book is so spot on! Points out the polly-parrots in the media. Where are our Edward R Murrow's in the world when we need them in this country? This one will stir within you what you already know but haven't realized yet!

good
