My oldest son, who is now 20, started with these books when he was in Middle School and he loved them. That was no shock to me since he loved to read. However, my youngest son, who refuses to read ANYTHING and is now in Middle School-- who won't even read a cereal box -- has suddenly fell in love with this series. He even asked me to order two more books-- which I did. Please let me stress-- my son would not read a dang thing!!!! And now, is so caught up in these books, he chose

to read last night instead of watching TV. INSTEAD OF TV!!!!I hope the Author takes that to heart. That she inspired a 13 year old to read on his own and actually IMAGINE the character and story-- something he has never been able to do before. So for that, this mother thanks you!

Wow! This was awesome. I have followed the series since the beginning and this sequel does not disappoint. I read the entire thing in about four hours (with frequent pauses near the end so as to draw out the end). Vlad has more problems than your average teen. His former best friend Joss wants to slay him, the former head of the Vampire Council D'Ablo wants to stab him, a new mysterious vampire wants to bite him, Eddie wants to alert the world to his existence, his former girlfriend Meredith wants to know why he was so cruel to her, and his drudge Snow wants to be more than just a delicious cheesburger to him. Heather's ability to keep multiple plot points in the air and still draw out an entire year of Vlad's junior year life is awesome. If you are new the series, buy Eight Grade Bites first and enjoy the ride! If you read the others in the series, don't stop now!

These days, life is a mixed bag for Vladimir Tod. On the one hand, his beloved Uncle Otis is staying in Bathory this year, so Vlad will finally have him around when he needs him. Then again, the reason Uncle Otis is hanging around is that the Elysian Council will be trying him for crimes against vampire-kind. And it's not like Uncle Otis isn't guilty. Sure, he committed the crimes to save Vlad from the insanely evil D'Ablo, who wants to steal Vlad's Pravus powers, but vampires aren't that big on mitigating circumstances and Vlad is desperately worried about losing his uncle. School is something else that Vlad is feeling all good news/bad news about. Uncle Otis is teaching mythology, a subject that Vlad, now a Junior, is sure to enjoy. But Vlad has just learned that his former friend Joss - the Joss that nearly killed him with a stake through the back - is moving back to Bathory. That can only mean that Vlad is a target for the Slayer Society. And school also means that Vlad will have to see Meredith Brookstone every day. Breaking up with her to keep her safe from his growing blood hunger was the hardest thing that Vlad has ever done. He's not sure his broken heart can stand the daily reminders of what might have been. In keeping with Vlad's maturity and the growing threats he faces, the fourth book in The Chronicles of Vladimir Tod is darker and grittier than those that have preceded it. As Vlad's destiny moves inexorably toward the prophecy of the Pravus, peril surrounds him at every turn. It seems that everyone Vlad knows and loves is in danger simply because they are important to him and Vlad is struggling with his need to protect them. As he grows into adulthood, Vlad discovers that only he can define 'the right thing to do.' Now he must find a way to do it.

This was a great book. If you wanted to get into a new series and you liked those other popular vampire books than you will love this more. Without giving anything away, it's about a 1/2 vampire who is best friends with a vampire slayer's cousin, dating the hottest girl in high school, and is sucking the life out of a goth chick whenever he gets hungry. Perfect life Right? Yeah, no... If you can't see where things could go wrong, eh. Throughout the troubles Vlad has made it through 3 books, this being the fourth and the fifth one on its way/out this is a great series for everyone, teens, tweens, my grandma even enjoyed the series (she's a big thriller and all around fantasy kinda person i.e Harry Potter, Twilight, even Percy Jackson). My girlfriend got me into them so yeah they are for everyone, don't be distracted by the "pretty" boy on the cover... Leading into the actual product... Great hardcover book, I own paperback for the first two, and hardcover for this and the third, Hardcover is always better, unless you can't spare that extra 3 bucks, go with hardcover. All in all by this product and if you don't like it, just pass it on because 4 out of 5 people will like it (In my honest opinion) Thanks for reading and ENJOY the product :) Eleventh Grade Burns #4: Chronicles of Vladimir Tod #4

I got this gift for my nephew because he is an avid reader and likes fantasy books. There are so many books like these but I chose this series because it was geared for his age group. He loves the series and I have the peace of mind that there is appropriate material for his age.

Great book.

This book is amazing! It so detailed and is a great choice for any book you want to read. It has humor, horror, action and anything else that makes a great story. I have read the whole series many, many times, and everytime I read it, it gets better and better!! So if you want a good book, that is very well-written, this is the series of books for you.

This book was bought as a gift. I have never read the series but my son's friend loved it.
