Leading New Testament scholar Douglas Moo offers an accessible guide to the book of Romans. This second edition is updated throughout and features a new design."It is hard to imagine a more reliable guide to Romans than Douglas Moo. His expertise as a commentator is renowned and rightly so. In this work he distills his knowledge in a way that is accessible to the ordinary person. If one wants to become acquainted with Paul's theology and gospel in Romans, this volume is the perfect place to begin."--Thomas R. Schreiner, Southern Baptist Theological Seminary"This clearly explained, beautifully illustrated introduction to Romans by one of the leading scholars in the field

will be immensely useful to anyone interested in the letter.Â One could not find a more experienced and highly skilled guide through the terrain of Romans than Douglas Moo.Â The well-chosen maps and photographs and the thoughtfully crafted discussion questions make this book an ideal choice for introductory classes on the letter, Bible study groups, and anyone who wants to understand this engaging and powerful text."--Frank Thielman, Beeson Divinity School

"Douglas Moo is the preeminent evangelical Pauline scholar of our generation. His *Encountering the Book of Romans* is a wonderful distillation of nearly four decades of solid exegetical work on Paul's most famous letter. In this updated edition, Moo continues to lead students through the major blocks and themes of the letter in a way that is easy to understand but does not dumb down the sophistication of Paul's message. The commentary is enhanced with many helpful charts, summaries, tables, and pictures. A great resource for students embarking on a study of Romans for the first time."--Michael F. Bird, Ridley Melbourne Mission and Ministry College, Australia

"The product of a notable Pauline scholar and an experienced teacher, this textbook provides an excellent and reliable guide to reading Paul's Letter to the Romans. For those encountering this letter for the first time, this work will bring alive Paul's important message for all believers. For those revisiting this letter, this work also serves as a helpful introduction to the scholarly reading of this Pauline letter. Particularly useful are the numerous sidebars that deal with various theological, structural, linguistic, and contextual issues."--David W. Pao, Trinity Evangelical Divinity School

Douglas J. Moo (PhD, University of St. Andrews) is Kenneth T. Wessner Professor of New Testament at Wheaton College Graduate School in Wheaton, Illinois. He has authored many books, including *Galatians* in the Baker Exegetical Commentary on the New Testament, and chaired the Committee on Bible Translation for the New International Version revision.

This book was very thorough and comprehensive. Moo goes into arguments/issues that arise in Romans from multiple angles which allows the reader to get a more holistic view of the argument/issue instead of simply one guy's. Not the easiest read but if you want to study Romans this is a good book to use.

Great book

Overall an excellent resource. For me a little dry, and I wish it had more modern day life application, but well worth the money spent. I have bought this for others as well, because it is a solid resource.

Dr. Moo established a well founded argument for a fresh approach to understanding and applying the book of Romans. He willingly lays out various interpretations, yet is solid in his personal approach, interpretation and personal application of the truths of Romans.

Excellent self-study guide. Each chapter had thought provoking questions.

This is a fantastic commentary on Romans. It's been extremely helpful with the Bible study I've been preparing. Moo has great application and doesn't get overloaded with too much detail.

In depth analysis of the Book of Romans. starts strong but it seems the loose its edge after several chapters. Not necessarily a book I would read cover to cover.

Ordered this for a class I am taking at my church. his shipped fast and was a good price.
