I found it a wealth of information on how to keep more of the money my business earns. It really went into depth on investing strategy to reduce tax liabilities in the long term. Not so much on explaining deductions available. For that I found 1001 tax deductions for 2017.

I have been using this book and its predecessor, Tax Loopholes, for 24 years. They have paid for themselves hundredfold each year.

Great Book...Thanks for the fast shipment!!!

good

Thank you so much for shipping so quickly. Can't wait to read.

One of the most frustrating books on taxes, tax planning, and ideas on how to save with your taxes. Sooooo much of this book is outdated - this used to be something you could do, but since the '86 Tax Reform Act you can't! Why the hell even waste the time to explain that? Very little here that will actually help the average person increase their financial IQ. Complete waste of money as far as I'm concerned since you can find MUCH better content online or with other books.

AWESOME!

Great Read!
