Fantastic Beasts And Where To Find Them: Read By Eddie Redmayne

Synopsis

A set textbook at Hogwarts School of Witchcraft and Wizardry since publication, Newt Scamander's masterpiece has entertained wizarding families through the generations. *Fantastic Beasts and Where to Find Them* is an indispensable introduction to the magical beasts of the wizarding world. Scamander's years of travel and research have created a tome of unparalleled importance. Some of the beasts will be familiar to readers of the Harry Potter books - the Hippogriff, the Basilisk, the Hungarian Horntail... others will surprise even the most ardent amateur Magizoologist. Narrated by Eddie Redmayne, this is the first audio book edition of Scamander's textbook ever to be released. Having starred as Newt Scamander himself in the movie *Fantastic Beasts and Where to Find Them*, who better to narrate this Hogwarts Library book from one of the wizarding world's most famous Magizoologists? Eddie's film credits include *The Danish Girl*, *My Week with Marilyn*, *Les Misérables* and *The Theory of Everything*, for which he won a Golden Globe, an Academy Award and a BAFTA Award for Best Actor. Dip in to discover the curious habits of magical beasts across five continents.... Please note: This A-Z textbook is enhanced for audio with original sound design. This audiobook includes "audio footnotes" which have been treated with a sound effect to differentiate them from the main narration. 15% of the proceeds* from this audiobook will be made available by the publisher to Comic Relief and Lumos Foundation for their work with children and young people to help them have a better life. 20% of these monies will be used by Comic Relief and 80% will be used by Lumos Foundation. Comic Relief is a registered charity in the UK with charity nos. 326568 (England/Wales) and SC039730 (Scotland). Lumos Foundation is a registered charity in the UK with no. 1112575. *Proceeds means the cash-price or cash-equivalent price less sales taxes.

Best Sellers Rank: #1 in Books > Audible Audiobooks > Children's Books > Animals #5

inÂ Books > Audible Audiobooks > Fantasy > Contemporary #13 inÂ Books > Audible Audiobooks > Children's Books > Science Fiction & Fantasy

Customer Reviews

Being the complete potterhead that I am, I loved this book. I reccommend it for anyone who is interested in reading an informative encyclopedia-like book that you can find in the home of many wizarding folk. This book is supposed to be in similar format to a dictionary. DO NOT BUY IT IF YOU ARE LOOKING FOR A STORY. This book is used in the wizarding world as a guide on topics such as where to find a Hippogriff or what a knarl really is. Page wise, it is on the small side and lacks pictures, but if you love it as much as I do, it doesn't really matter. Multible people gave this only one star (undeservingly so in my opinion). Many of these people did so purely because they didn't research the product (by using the internet or READING THE HP BOOKS) before buying and were looking for a fairly tale or story similar to the new upcoming movie based on the book, not an encyclopedia. Do not let these bad reviews stop you from buying this book. I do suggest actually going to a book store rather than buying it from though. That way, you will be able to skim through the pages and see if this is your kind of book. In addition, I read a few unsettling reviews about how in the name of God there is going to be a movie made based on the book. In case you are interested the movie is going to be about the author, Magizooologist Newt Scamander. Hope my review was helpful.

A lot of fun for Harry Potter fans. My nine year old daughter loved it. She really enjoyed the funny hand written comments included throughout the book as if it were a student text book.

Such a great book! It is so fun to be able to go into the wizarding world and learn about the creatures and beasts as if a wizarding student yourself! I happened to read it about a month before the "Fantastic Beasts" movie came out, so I was well informed when I went to see the movie. The details are great and the humor that is wound into the book really fits with the humor of all of the J.K books!

This is a great little reference book. It has some cute asides from Newt and nice descriptions of fantastic beasts, and parts of it are humorous. I enjoyed reading through it. However, I would LOVE an illustrated version.

I was very worried when I read all the reviews and they were all for the screenplay. I already have the screenplay AND have seen the movie but have been waiting for the re-release of the actual Fantastic Beasts encyclopedia. Thank goodness it was exactly what I was hoping for! This book introduces all the different magical beasts and gives you different information about them. It is a great companion book to help better appreciate the movie! The hard cover is beautiful and the pages even have a glossy feel. I only paid \$7 for it and feel it is definitely worth more with how nice of a quality the actual book is. I haven't read any of it yet but will update after I do!

I was expecting a novelization of the movie, not a glossary of the beasts themselves. What is there is good reference material to keep beside the other Hogwarts World books.

This the textbook from Harry Potter's materials list for Hogwarts. My daughter is a Harry Potter fan, and the textbooks were the perfect addition for her collection, especially since JK Rowling pledged to donate her proceeds to Comic Relief, a British charity that helps underprivileged children.

J. K Rowling stands alone in the world of creative ideas is magical fantasy! Her works will be classics and enjoyed by all through the ages. There isn't a child adult who doesn't wish we could "swish and flick", ride Buck Beak, or meet all of the other magical creatures she has created.
