Customer Reviews

The artwork is gorgeous in this book. Moana has an amazing story that will surely be even more entertaining in theaters. It's great to see Disney make a film based around the Pacific Islands. November 23rd is getting closer! :)

We purchased the movie Moana on release day and my kids loved it! They love stories and I love to read to them so I figured it would be good to get them a Moana book. I debated between the Moana Little Golden Book (Disney Moana) and this one and purchased this version for

several reasons. First, my twins are now four and sitting through longer stories. This version was also only a couple dollars more at the time and we like a more in-depth story. Lastly, I like the illustrations in the Big Golden Books more than the Little Golden Books since they look the most like the images in the movie, at least in our experience. Moana is the story of a chief's daughter who has felt drawn to the ocean from a very young age. The story is set somewhere in the Pacific Islands and Moana yearns to know what is beyond the reef but it's forbidden to venture out that far. She also makes a discovery about her ancestors but still has no idea who she is. As is typical in most of the more recent Disney stories, this one is filled with adventure, some humor, and a beautiful storyline. This book is just like other BGB so it will fit in perfectly with your collection. It has hardcovers, glossy, colorful pages, and the gold spine. This book measures almost 9 inches by 11 inches. There are 40 pages to the actual story, along with a few additional pages. Each set of pages has several paragraphs and beautiful, vibrant pictures that help describe what's going on in the story. This story captures the main points of the movie and will take about 15 minutes to read, give or take a few, depending on how much you talk about the story. My kids love this story and have asked for it several times since we've had it! I love the story as well and feel it is a good, descriptive version of the movie. Sometimes my kids will just sit and page through the book, looking at the pictures. They loved it so much that we purchased one for our nephew since he likes the movie too. We love this book and highly recommend it for anyone who enjoys the movie and wants a book version. If the other BGB stories we have are any indication, this one will be greatly loved and we have read it several times already. It's a great bedtime story or one for any time of the day!

The children who received it loved it and are now going to see the movie

Just took my weeun to see the film and purchased this book so we could read the story again and again. I was a little surprised that it was oversized. I should have checked the description a little closer. Despite the size being not what I expected, I'm actually loving the larger size as it makes for a better storytime session.

Another Good Movie adaptation of the book, covers the main plot pretty well. Little one loved it (age 4/5)

A great book that follows the movie plot really accurately. Both my 3 and 5-year old boys love this story - even the lava monster!

Wonderful re-telling of the story from the Moana movie. Beautiful artwork. Highly recommend.

I really like the movie as does my daughter. This was a gift which my daughter likes.
