## Customer Reviews

This book is awesome and filled with great facts! Fun and educational.

I love my space stickers, it contains real pictures, and the imagines are neat. Also, it has lots of stickers, most stickers books have a few or very little stickers. This books bring a big size variety, I love it.

The pages are not overcrowded with information, which makes it easy for my first grader to read each segment that goes with the stickers. We are really enjoying this book and I hope to get the dinosaurs one when we study dinosaurs.

Fun and educational

I ordered this for my daughter cause she is in to space . Well she loved it and its got great facts about space . It's good for learning too cause its fun so they don't think of it as learning . But because of it she knows alot about space now. It's great

My nephew LOVES this book.

GREAT CLASSROOM TOOL!

A great conjunction - this sticker book and a bright 4 year old's fascination with all things outer space and interactive art.
