Be very careful when ordering this. I ordered it as NEW from . When I went to use the code, it was already in use. So now I have to return the card and get a replacement shipped.

Purchased this card for a college class and was represented as NEW. When I went to use it I found it was a used card with someone else's access code and email. Had to go out and find a new card at a bookstore in town. Got it for \$30 less at the bookstore. Now I have to go through the trouble of returning it. Poor quality control somewhere behind this purchase.

I cannot speak for the program itself since I am just getting started with my class, but I just wanted to say that I had no issues whatsoever with the access code. I was really hesitant to get this after reading the issues everyone had with their codes but I got down to the wire and knew I couldn't be able to physically go to my local campus bookstore. It worked just as expected! Additionally, I am using this code with this

book:http://www..com/gp/product/1285167643?redirect=true&ref_=rental_yal really enjoy rentals - I ended up still saving over \$20 on buying the access code here, and using 's textbook rental service combined.

This is the most worthless item I have ever purchased. It has no instructions on how to use it. The school doesn't accept it even though it came from the very same company that the schools online link goes to. I am exceedingly disappointed in the way this product is supported. Or should I say NOT supported.

Got the wrong SAM 2013 codes for my Excel class from the seller. Different ISBN from what was advertised. Got lucky enough, because my professor was able to exchange my code to the right one through Cengage publisher. Otherwise would have to go through a hustle of returning and exchanging the product.

Bought this for a college class. This was the cheapest i was able to buy it. I seemed to always have issues with the software, but glad i got it cheap.

sam sucks and i just needed this for my class. sam wants you to do stuff a certain way while taking the labs, quizzes and tests. even though there's many other ways to do the same task, sam wants you to do it their way and not your own way.

I was a little scared from reading other reviews on this activation code from , but it works just as well as my college bookstore's activation code, and it was \$60 less. I bought mine from Sunny Side Books.
