## Customer Reviews

Similar to his other dating relationship book How to Get Almost Instant Obedience From Your Woman - Wife or Girlfriend It tells it like it is. If you have read other beat around the bush books about women they say some of the same things but Dante really puts them in a funny guy relate-able context. If you have that kind of humor.

I thought this was a very informative book and I plan on using the methods in the book in my life. I feel that any man having difficult time keeping the interest of a woman or getting the interest should

read this book.

I've read a lot of books on seduction and PUA and Dante Dylan cuts to the chase of all tricks, nicks, and gambits you will ever need. And it's actually easier than you think. Understand that dominance, confidence, and power come first before looks and this is what women are hardwired for. Showing a notch or 2 less interest in her at all times, and last but not least learn to eliminate needy-ness. This book is probably the best book out there that will help you make changes quickly in your life so buy it and listen to it 30 times so it becomes a part of your character.

Great guide to staying single. It's worth the \$5 to listen to if you're in need of a good laugh. Obviously written by someone with limited success and experience with women who has "learned" from other men with limited experience. This book assumes that one approach will work on all women. Don't believe any guide that doesn't recognize women aren't all the same.

I started referring this book to all of my guy friends that post about losing their "stupid" women to losers (via Facebook posts). I don't even care if women get pissed off about it! I am a woman and I know firsthand the mindgames, manipulation, and sabotaging that women do. That said, this book teaches men how to approach and deal with women. So read this material so that you can confidently go into battle prepared. Love is war. Let go of chicks that don't respect you. Be a man. A good woman will WANT to go above and beyond for a good man that demonstrates his power, his leadership, his confidence. She will not walk on the man that she looks up to and respects.

It's a great book it's more than worth the money If you are a nice guy you need this book
