I bought these as party favors for my son's birthday. You get square stickers of various sea creatures that the kids stick on each corresponding page above a little factual paragraph about the animal. The kids thought they were really neat when they first looked at them, but once they stuck the stickers on they tossed them aside and that was it. A bit of a waste.

I love the Dover Little Activity Books series. These books are the perfect size for small children and they learn so much from them! This book has descriptions of sea animals and the child must match the sticker with the description on each page.

I have been buying Dover Learning About activity books for my son, since he was about two years old. He is not able to read them by himself yet, but he is able to memorize all the names. He not only recognizes the pictures, but he can name each creature when we go to our local aquarium to see the real ones. The stickers are just illustrations, but they are detailed, nonetheless. This book includes the Seahorse, Starfish, Oyster, Moon Jellyfish, Sea Anemone, Atlantic Long-fin Squid, Horseshoe Crab, Northern Lobster, Blue Crab, Octopus, Hermit Crab, and Sea Urchin. Each one has a paragraph detailing facts about their life in the sea. If your child liked *Wonder Pets* - Save the *Wonder Pets*, this little book is a great way to transition your child to the real sea creatures.

This was shipped very quickly. It's really a small book about 4x6 and it has some stickers that you can put on the pages that have about a paragraph of information. It was a low price but its a small book
