Provides some insight into the sect some think educated Jesus and the Apostle John. However, Josephus provides the most concise summary of their beliefs and practices. It is easy to overlook the pearls these people provided in its liturgical style. Reading Josephus has led me to believe the First Century Christians incorporated a great deal of Essene philosophy in their daily lives. Much of the writing style is repetitive and can lull you into thinking they were Nature Worshipers. They led a simple uncluttered life devoted to searching out God's purpose for life on earth.

Interesting point of view.

A very detailed and compact treasury of the Essene writings. A must have for any Gnostic studies. I Highly recommend it!

If a book had arms, this one hugs you. The free flowing words of faith, hope, and love straight from the tongue of Jesus are extremely interesting and captivating and will leave you in a state of peace.

The Essenes were devout believers in God. It is believed that they were the community of people who wrote the Dead Sea Scrolls. They lived 13 miles from Jerusalem as late as 68 A.D. when the city of Jerusalem and its citizens were annihilated by the Romans who slaughtered the Essenes as well.

Book filled with thought provoking information.

Action-packed small book on the Essenes that uncovers many mysteries for our time. Thanks for offering this wonderful book for sale.Kathryn Sitterle
