Come Away With Me

Synopsis

Being confronted on the beach by a sexy stranger wasn't part of Natalie Conner's plans for a peaceful morning taking photos. And why on earth would he think she's taking pictures of him, anyway? Who is he? One thing's for sure, he's hot, and incredibly romantic, feeding Natalie's wounded soul. Luke Williams just wants the world to give him a break, so seeing yet another camera aimed at his face has him ready to pounce on the beauty behind the lens. When he finds out she has no idea who he is, he's intrigued and more than a little tempted by her. Natalie has a body made for sex, a sassy mouth and Luke can't get enough of her, but he's not ready to tell her who he really is. Natalie is a no nonsense girl who doesn't do well with lies and secrets. What will happen to this new relationship when she discovers what Luke's hiding?

Book Information

Audible Audio Edition

Listening Length: 11 hoursÂ andÂ 5 minutes

ASIN: B00GXSCV3C

Best Sellers Rank: #104 inÂ Books > Audible Audiobooks > Romance > Contemporary #1218 inÂ Books > Audible Audiobooks > Fiction & Literature #2148 inÂ Books > Romance > Contemporary

Customer Reviews

I thought this story was good but for a few things that bugged me. 1. There was some childish jealousy issues with both characters. He gets crazy jealous over her taking pictures of single men (it's her job that she told him about) and she when he was photographed with an ex by paparazzi and saw them on a gossip show (hello...he's a movie star) and believed the story. 2. The I love you came really fast. No build up. 3. I did not like it that the story was told from her point of view and you didn't hear his until the epilogue. I did like the locations, his parents and her "adopted" family and best friend Jules.

Second time reading, first time reviewing. I had read this series before but not the last two books. I wanted to reread it before I read the last two. I always liked that this story had a different story line. It's the story of Natalie and Luke. Nat is just coasting through life but not really living. Luke is hiding from the hardships of life. Both need to learn to open up, trust and love. Each has a different story, background, upbringing, carrier, hardship and family. It's interesting to see how different one situation can be interpreted. Great Read that's not full of drama but is full of love and a hot scene here and there.

I just discovered Kristen Proby and her With Me In Seattle series and I've fallen head over heels for her style of smoldering love! This first book is about the fun, sassy, and passionate romance of Natalie and Luke. Kristen's portrayal of her characters is so realistic, you feel like they are people you actually know. She blends her fictional subjects seamlessly together with real people and situations. I enjoyed this book from the first page to the last, and it was very difficult to put down in between! I'd recommend every adult who likes reading romance novels that does contain some graphically detailed sex scenes, to pick up this entertaining book, sit down, put your feet up and dive into this fantastic five star adventure!! You won't be sorry!! Tamara Barton

As far as sweet, heartwarming romances go, this was a pretty good choice. It was predictable, but enjoyable. I listened to the Audible version and found the narration to be well done as well. Natalie meets Luke when she is taking pictures early one morning. She is a photographer and he mistakenly thinks that she is photographing him. He tries to get her camera from her, only to find out that he had misjudged the situation. There is plenty of attraction between the two and a whirlwind romance ensues. Yet, before they can even establish their relationship, they are having problems. After only a day or two together, they're having their first big fight. From that point forward there is drama, drama, drama! Now, I love stories with a large helping of conflict and plenty of angst. However, you really can get too much of a good thing. The deeper into this story I got, the more I wondered if there was any cliche that hadn't been covered. It felt like the author just started throwing in every over-used plot "twist" that could be thought of, indiscriminately. One or two is manageable, but this was out of hand. Despite all of that, I did mostly enjoy this story. It was good, even if I spent a fair amount of time rolling my eyes. In fact, the first half was easily a 4-star read for me. Somewhere along the way, it fumbled. I won't be rereading this one, but it was alright for a one-time listen. Could've been better, but it could've been a lot worse also. This one landed firmly in the "middle of the road" territory for me.

I love Natalie and all of her feistiness. I love that when we meet her she is uncompromising. She apologizes to no one and is true to herself as much as she can be so she thinks. I love the opening scene of her with Luke. Totally unexpected and very clever of the author. Of course we side with Natalie and want to smack Luke silly. I love the attraction they feel almost instantly even though he's being a jerk. There were moments that felt just like so many other books in this genre but I still very much enjoyed Luke and Natalie's story. I would recommend.

A very straight forward love story. Lots of delicious sex. A story of learning each others faults, weaknesses, and learning to love. At first I didn't like his childish jealous behavior but then she got jealous also. Not sure if the author was trying to show the way their relationship changed? Also, didn't like that every time they had sex he had to comment how she was ready for him. Well, yeah with good sex a woman usually is. I know for a lot of people this story is probably too sweet, but I know true romance like this exists. I've lived it in real life for 11 years. Anyways, predictable but kept me entertained.

No cliffhanger. Is part of a larger series but can be read as a stand alone book. No major editing errors. One of the best books I have ever read! I am madly in love with this book and series. This isn't the first time I have read this book but when I first read it I didn't understand how important reviews were. Kristen Proby writes her books in a way that makes you not only become so engrossed in them that you can't put them down but you become so invested in the characters you find yourself holding your breathe while you wait to see what happens next. I don't want to give anything away but Natalie and Luke are amazing characters. Kristen does such a great job developing them separately and together. She also does an amazing job of introducing other characters that you fall in love with as well so while this can be read as a stand alone you likely won't be able to stop reading until you have read every single one of the books in this series like I have. (Multiple times). One of the best series out there. Highly recommended.
