# The Seven Military Classics Of Ancient China

## Synopsis

Finally available in paperback, Ralph D. Sawyer's incomparable study of ancient Chinese warfare. One of the most profound studies of warfare ever written, *The Seven Military Classics of Ancient China* presents us with an Eastern tradition of strategic thought that emphasizes outwitting one's opponent through speed, stealth, flexibility, and a minimum of force - an approach very different from that stressed in the West, where the advantages of brute strength have overshadowed more subtle methods. Safeguarded for centuries by the ruling elites of imperial China, even in modern times, these writings have been known to only a handful of Western specialists. In this volume are seven separate essays, written between 500 B.C. and A.D. 700, that preserve the essential tenets of strategy distilled from the experience of the most brilliant warriors of ancient China. This accurate translation remedies a serious gap in Western knowledge of Asian thought. Based on the best available classical Chinese manuscripts, some only recently discovered by archaeologists, *The Seven Military Classics of Ancient China* is a uniquely important contribution to the world's military literature and is essential reading for anyone interested in China's rich cultural heritage or in the timeless principles of successful warfare strategy.

Best Sellers Rank: #181 in Books > Audible Audiobooks > History > Ancient #192 in Books >

Audible Audiobooks > History > Asia #478 in Books > Audible Audiobooks > Science >

Technology & Engineering

## Customer Reviews

Sawyer knows his subject. He is a master of Chinese warfare and culture. He even teaches you how to pronounce some common Chinese words that we in the west always mispronounce. The book is great. It covers a lot --- not just *The Art of War*, though that's included. It is a complete study

of the Chinese strategies of war and I recommend it to those interested in this topic.

I, for one, enjoyed this book. I am not here to critic, as a few of these other reviews appear to be. One, the book is easy to understand and follow. Meaning, the translations are well recorded. Two, I have recently been curious in Chinese history of warfare and this book was able to show me much Chinese philosophy towards warfare. I recomend it this book to any follower of military history or Chinese warfare. You get your moneys worth.

Scholarly and well translated.

This book was delivered in perfect condition. The text is clean and well organized. The book gives a detailed introduction to each of the seven books included. The translation is easy to understand and enjoyable to those those looking to study these classics.

A must for my library.

Love this book!

Excellent --- arrived in great condition --- as advertised. Thank you

Good product. Fast shipping.
