Age Range: 4 and up

Grade Level: Preschool and up

Customer Reviews

This is my second doodle book and it is fantastic. The book is broken up into sections by rooms and decorations. The first doodle book I had was Christmas Doodles. I didn't know these types of books existed until my 4 year old daughter had a coloring book that had doodles in it and I then I accidentally found the Christmas Doodle book. From that point on I was addicted. But I quickly became tired of X-mas doodles and found this book. It reminds me of something I would have loved as a girl but the drawings are not juvenile. While not juvenile, I do not feel that the sketches are so advanced that I cannot "doodle along" with the author. In fact, I really had no idea I could draw until I purchased these doodle books. In the past, I was able to look at a picture (such as a cartoon, not a photograph) and draw it on to another piece of paper but could never just draw something

independently. This book has given me the confidence to draw pictures from my own imagination. It turns out the only thing holding me back was myself! I highly recommend using Sakura Micron pens as they produce fine lines that do not bleed through the paper and dry very quickly. For pencils I recommend Prismacolor Premiere. However, note that the colors from one page (such as on the left side) will transfer to another page slightly (on the right) so you may want to put something between the sheets to preserve the artwork. Now I'm ready to strike out on my own and not just doodle but draw everywhere!

Dream House Doodles is a follow-up to the author's Designer Doodles series. In those books, the artist created fashion-related patterns, drawings, and designs. In Dream House Doodles, the artist creates furniture, wallpaper, art, and myriad other housewares to create eye-pleasing interiors of her or his own design. This book has a very high entertainment value. If you love to color and draw and you enjoy decorating, I know you will really appreciate this book. The pages are high-quality paper, not newsprint, so most markers won't bleed through. (Permanent markers DO bleed through, FYI.) Younger children may be frustrated by the amount of drawing they are asked to do if they're trying to make it look as good as the illustrations already in the book. I would reserve this book for ages 10 and up. It's the perfect coloring book for adults (like me) who have never outgrown them. I recommend a fine-tip black drawing pen for continuing the pictures and drawing designs in this book.

This is a great book for older kids (or even adults!). I bought it for my daughter and I kept doodling in it as well. There are pictures to color and also little things to complete.

Cute concept. Finish the already started doodles... My daughter loved it. Have purchased more than one in different subject matters. Recommend.

This art book allows kids to finish the picture, design and be creative. My daughters (7 & 9) have 3 different books, and they enjoy them all. Even an adult would enjoy doodling them...

This is a fun book if you love to decorate your house. You get to fill in the basic lines to make your own patterns.

Arrived as described.

great book. Lets you become creative and great for kids. My granddaughter loved the book which I gave her at xmas.
