Customer Reviews

I rated each of these books separately, too. I enjoyed this series. The first book was pretty amateurish and I wasn't sure I wanted to go on with the series until I read the novella that comes next in the chronology. The writing was so much better, the characters so much more nuanced, that I was willing to give the second novel a shot. Books 3-5 were better for sure. I thought the story was interesting and the characters, too. Overall, it was a good series. I'm not on fire over it, but I had some fun with them and spent some enjoyable hours. If you like fantasy and Grimm fairy tales, this might be a good choice for you.

This is a great novel for anyone who likes adventure, good vs evil, and romance. It is appropriate for ages pre-teen to adult. A great rated PG book.

I absolutely loved and thoroughly enjoyed this series! I really liked all the plot twists and complexity of all the characters. I'll definitely read it again!

This has been an the most amazing series. New spin on the Grimm fairy tales. A must read for all ages.

I got the first in the series and liked it so much that I got the rest of the set. :D

All of these stories are excellent. I would recommend them for any age. I'm 49 and I loved them.

I just couldn't put the books down! The story draws you into your favorite childhood fairytale with a twist.

The book was a good easy read with a fun and magical twist on classic fairy tales! I read the whole series in a week.
