Under The Sea (Magnetic Story & Play Scene)

Synopsis

Pre-school children will enjoy working out which marine-themed magnets go in the magnetic spaces on each page, prompted by simple text such as "the submarine enters the coral reef". Once the magnets have all been stuck down, and the child has reached the last spread, a giant play scene can be folded out from the back. Here, the child can recreate scenes from the story, or create ones of their own.

This book is too cute! It comes with 20 magnets that are all on the larger side so they're less of a choking hazard. There are four different ocean scenes for you child to place the magnets on and the last page flips open so it is three pages wide. My 2 year old loves this book and I like that it's a quiet time activity.

The magnets are really weak but my son doesn't seem to care about that (Ren though they might fall off the pages just with the movement of the car or plane).Cute pictures, cute magnets.We got this book for a plane ride though, without realizing it was so heavy. Keep that in mind!

These don't stick super great. I would go with the brand 'Magnetic Create-A-Scene.' We got the trains set. It works much better. I wouldn't recommend these for purchase.

My daughter loves them but I was hoping for stronger magnets. They barely hold on the book. They hold great on the fridge though !

This helped with airplane travel and entertaining my 2 and 5yr old. The magnets are not that strong though and do slide off the book. The magnets have now ended up on the fridge but the kids still enjoy playing with it.

I work in a preschool and use it for 3-5 year olds. The words are a starting point for conversations about names, colors, intentions, positions, and emotions. Great as a story starter. Or just fun to maneuver the fish around the various settings. I wish they made more of these.

Lovely book

My daughter loves this book and putting all the magnets everywhere. The magnets are reasonably well made and they stick to the book well.
