My 5 and 6-year olds loved this book. It made touring DC really fun and interesting for them. While they are still learning to read, the books were filled with enough photos to keep them engaged. My only critical comment/request would be to add answers to the questions somewhere in the book. I also think some of the clues etc could've been slightly more relevant to the site but that could just be a function of my age group. Lots for a parent to build on from the book - secret agent badges, etc. Thanks!

I bought this book for my 7 year old son just before we left for our trip and it really encouraged him to explore at all the DC museums and monuments and to look for things he wouldn't have looked for otherwise. I even enjoyed reading over all the facts within the book myself.

This book made touring Washington DC a lot more fun for our 5 year old! The missions got him interested in places he may have otherwise been bored or overwhelmed (DC has a lot of big concepts for little ones) at and helped him to stay engaged.

Very good resource to keep my seven year old interested during our trip to DC. During a wait for tickets to an attraction there, another parent overheard our conversation regarding his "mission points" and wanted to know where she could find a book as well.

Made the trip more fun, needs to be updated with some new information and take into account that some locations are hard to approach security-wise. Also I would add a planning guide, or day plan.

Our eleven year old used it some but not as much as I hoped. She read it through on the trip there though.

This was a fun read. We did not end up checking the items off our list while in DC because we were too bus. However, we enjoyed reading it before we went to become familiar with what we were going to see.

A big help planning a Washington trip
