Great

I found the words in the program challenging and would highly recommend this program. Some of the other programs out there spell every word and when you need to listen to them multiple times to remember/learn the words the spellings seem redundant. And for those who want a book with the words spelled, the original publisher sells a printable/downloadable workbook as an add-on to the program.

It is good; however, there is no instruction for how all words are spelled. It will be better if a list of words provided with the product. It is very hard to listen to new word and not so sure how it is spelled.
