Every woman needs to read this book! The lessons are immediately able to be put into use. But more than that, it reminds us of how we present ourselves and how what we say and do has an impact. Regardless of the audience. It truly is a terrific book and one that I will refer to many times in the future.

This is absolutely the best book for anyone who makes any sort of presentation...man or woman. It's practical, smart, and so helpful. I just wish I'd had it about 35 years ago!

At least you can admit to yourself "I never thought to say it like that" this is an awesome book for all occupations..it helps you impact your audience...good with letter writing also!

Gave this as a gift to a coworker and she said it was a good read. Helpful information she put to use.

I am interested in public speaking and found the information by Christine K Jahnke invaluable. Some of the chapters aren't relevant to me at this time, but it is a book that is worth keeping to read and reread many times.

Preparing myself for my new role as PTA president for a school of 800+ families and the tips I've learned are well worth the read!

This book gives you insight on how to speak well, it also helps you prepare your speech and how to connect with you audience, so your point and your purpose of your speech is relate able to the audience. Over all good book.

Great read! I picked up a couple of pointers and plan to implement during my next presentation
