Richard Ferrone's gravelly voice and professional delivery skillfully portray the main characters of the Left Behind series in this new series, Countdown to the Rapture. Ferrone's depiction of Rayford as a child is typical of a youngster with the dream of becoming a pilot. His recreation of Nicolae Carpathia portrays an icy-cold persona from birth. His portrayal of Carpathia's haughtiness strikes a chord of fear. Ferrone's narrative and characterizations capture the essence of each character, but, as good as he is, he can't overcome the plot. Since the listener knows the ending from the beginning, the characters' back story fails to engage. This title would work well as a sequel, but not a prequel. G.D.W. The Left Behind series audio books are great listening, sometimes hard to keep in mind they are fiction, and after listening to the whole series twice through, I was glad to learn that there were prequels! These are all as well written as the main series and I would recommend both the print and audio versions to adults and young adults. All give a very clear presentation of the gospel, too, and use scripture generously.

bible come alive

We love listening to the Left Behind Series and would recommend this to anyone who has to travel a lot or who is home recovering from an illness or for those who work where they can have a story playing in the background.

Great Christian series

I listened to all 16 books in this series and found them to be interesting dramatizations of what may occur in the end times. This one is just the beginning of the story.

I love the Left Behind series...received shipment fast!

Very good, not very many skips, arrived when promised. I now have the entire series. Enjoyed having this, and will recommend.
