Dr. Anarchyâ€™s Rules For World Domination: (Or How I Became God-Emperor Of Rhode Island)

Synopsis

Dr. Anarchy is a man with a simple dream: to conquer and rule the entire world. While he has yet to achieve his goal, he has managed to become absolute lord and master of one small corner of it. This is the story of what one man was able to achieve though hard work, dedication, careful planning, unhealthy obsession, giant robots, disintegrators, remote controlled grolem dolls, a horde of disposable henchmen, killbots, an annoying cyborg ninja, and 36 rules every supervillain should follow!

Best Sellers Rank: #3 inÂ Books > Audible Audiobooks > Humor > Parodies #40 inÂ Books > Humor & Entertainment > Humor > Parodies #135 inÂ Books > Science Fiction & Fantasy > Fantasy > Superheroes

Customer Reviews

Another fun book from this author. In a land where superpowers exist the author chose his protagonist to be merely "one of the smartest" people in the world. This was a great choice since this was another character that had to outsmart rather than overpower his enemies - and many times he couldn't outsmart them either. He wasn't a hero or anti-hero, just a guy with a big chip on his shoulder but in the end had just enough self awareness to avoid major disasters. i was disappointed this book came before book 3 of the rabbit series, but in the end it was a pleasant distraction.

This book is truly funny! The satire is hilarious! The anti-hero and anti-heroine have your typical love story while being very bad people.

I only give 5-star ratings to books that I read more than once. I've read the tale of Dr. Anarchy three times, and it hasn't lost any of its flair despite the fact that I know exactly what's going to happen. The story is filled with clever tricks, a spunky ninja, consistent characters, death rays, and an ending that takes the reader by surprise, which is frankly an impressive achievement given that the ending is right there in the title. If you're interested by the idea of a look into the inner motivations of a professional supervillain, give this a go. You won't be disappointed.

One of the best self-published books I've come across on , and I've read a lot. I'd put Chereta's writing, character development, and pacing up against just about anyone's. Planning on looking at his other work.

This isn't the type of story I normally read nor is this format either but I really enjoyed the characters and how the story was written. Some parts whereby explained great but the author made up for it with how well the story flowed on, making the detail not as important. I really hope the author writes a sequel.

Love love love this book. Love his clever writing. Love the world. Love the characters! Must read for fellow readers who wish, most of the time, they could take over the World!

I bought this book partly to support the author but mostly because its just so damn funny. I loved the Waldo Rabbit series and loved this one too. Story is nothing new or original but it does a good job of parodying comic book heroes, batman is the dark detective, and superman is called super soldier. Overall, the book makes enough insightful comments through the character's actions and words that I thoroughly enjoyed it.

A massive fan of his Naruto fanfics, as well as the Waldo Rabbit series, I keep close watch on whatever Nelson Chereta writes. Dr Anarchy is realistically hilarious character sure to make you laugh, and his accomplices, nemesis, and rivals help make one hilarious comedy mocking our classic DC heroes.
