Customer Reviews

A kingdom is in turmoil as the old king dies and his successor must do battle for the throne. Pitted against an evil wizard and a would-be rival, Prince Peter makes a daring escape and rallies the forces of Good to fight for what is rightfully his. This is a masterpiece of classic dragons-and-magic fantasy that only Stephen King could have written! --This text refers to an out of print or unavailable edition of this title.

Advance publicity hails this "story" (not labeled a novel) by the popular writer as appealing to "readers of all ages," although its genesis was in a story King told to his children. King's legion of fans are likely to find that a restrained maturity marks the differences between this stylish, successful effort at fantasy (illustrated by 21 half-tones) and his earlier, sometimes overwrought writings. Eyes details the crusade of Peter and Thomas, two princely brothers, to destroy the 400-year-old Flagg, the evil magician who threatens to control the kingdom of Delain after the death of their father, King Roland, who remained unwed until he was past 50. Flagg has imprisoned Peter, the heir apparent, on suspicion of murdering the king (actually it was Flagg who did it) and installed the profligate second son, an easier mark, on the throne. Surprisingly, Eyes is a gentle story,

despite violence, gore and his standard vulgarity, because King has ingeniously interposed himself between reader and narrative as if he were telling the tale aloud, with a soothing cadence practically audible in the evocative prose. This heartwarming chronicle of brotherly love may be enjoyed by young adults and their parents. 1,000,000 first printing; \$300,000 ad/promo; BOMC selection. This was the novel that introduced me to Stephen King. I had always avoided his writing because I wasn't that interested in the "Horror" genre. It wasn't that I didn't like suspense- it was that I thought the whole book would be describing blood, gore, and entrails. I was sooooo sooooo wrong. This book weaves a mesmerizing story that can gracefully introduce a fan of fantasy into the world of Stephen King's writing. I bought this for my son for Christmas and look forward to introducing him to The Dark Tower this summer.

Actually bought this copy because ours had disappeared and needed to complete our King collection. I would recommend this book to a young adult reader; there is no gratuitous violence and nearly no sex (well, there had to be or the main character wouldn't have been born, right?). The story is tight and interesting, and a great read.

Easy to carry around in backpack if stuck in traffic or on train. Do not have to worry about big book or damaging it. Bought used. Still, decent condition. Nice read. Not his usual stuff. Good characters and plots.

Another winner from the Master of fiction! From ...Dear reader....

This is one of our favorite books. We had to buy another copy because our daughter was threatening to take ours to college with her.

This book is amazing. I read it when I was in the 8th grade and loved it. I have been looking for a copy since I lost my old one.

The book is great just with it included dust jacket

Bought as a Christmas gift for a 10 year old. I read years ago and loved it!
