Customer Reviews

my husband has thoroughly enjoyed this book. these little snippets have sparked great conversation.

Great Book. Thanks

Chich for president!

The stories in this and the other similar books in the series are fun reads. Lots of short stories from the links and linksters. However, the book is stretched with pages of illustrations and wide margins obviously used to stretch the "length" of the book. Rather than a series of "four" books this material would be better served by one longer and better packaged book. I loved the material but felt cheated in the packaging. A reader of the series will also see frequent repetition of stories.

An only so-so account of PGA Tour players, events and locales through the ages. I thought there would be more meat on this bone, but the book left me unsatisfied, like an average restaurant that serves too small portions.

I guess it's true/ you get what you pay for. I knew it said miniature version but this is not even funny. Book is tiny with only a few pages. I would not recommend wasting your money.
