Commercial Real Estate: The Beginners Guide For Small Investors To Reap Big Profits (Real Estate Investor Series)

Synopsis

You're here because you know what's already possible with investing in commercial real estate. This is not an industry tolerable for minor, unnecessary mistakes. Whether you want to escape the rat race, create an income source, become a millionaire, or build a multi-million dollar real estate empire, this book is your starting place. Inside, You Will Discover... The different types of commercial real estate buildings that are available for purchase Key industry terms that are essential to your growth as a commercial real estate investor The details of how to start investing in real estate investment trusts and groups Information on how to start investing in commercial real estate on your own if you don't want to join a trust or a group The importance of having an exit strategy for any property in which you invest and how you can go about designing one Who is this book not for? This was not designed for the already super successful commercial real estate investor. Conversely, it is not designed for non-action takers. Real estate is a game about finding the right deal and betting you're on the better side of that deal.

Customer Reviews

I know for me, real estate investing can seem really intimidating and risky. This book was very helpful because it allowed me to see good examples of how I can get started and be successful. I would recommend this book if you're interested in real estate investing. Author of this book is very passionate about real estate and helping people learn what they need to success.

As someone who was looking to learn about real estate investing , I am very happy that I bought

this book at a decent price. This book is well written and in details. It explained to me all the steps that I need to consider, mistakes to avoid and so on. This book is a good investment for starters like me

Five stars? Is that all I can give? Really, this book deserves so much more. The techniques provided on these pages, as well as the suggestion it gathered, are worth far more than five stars and I would consider this book to be a great bargain at twice the price. Keep up the excellent work, Vincent Norris. Highly recommended.

A lot of important information here. This book will teach you the basics to get started. Gives you all of the definitions and possible paths that you can go down in real estate. Great no bs book overall. This book makes commercial real estate easy for the novice in the profession.

Commercial property can be a great investment. I can definitely see why there is a lot more competition for commercial property. I agree that there is definitely a future in this investment. This guide book is truly helpful for us (beginners). This is worth to read!

This book is incredibly short. I read it in 20 minutes. 93 pages with huge type and huge margins. The content was disappointing as well. "Beginners guide" is an understatement. I barely learned anything.

Awesome and perfect book. I was familiar with much of the material, but it never hurts to review the basics. It did refresh and remind me of some terminology that I had forgotten about. And I can say that it has motivated me to get in the commercial real estate investing game! I highly recommend this book.

This book is an amazing commercial real estate guide. This book has some useful techniques and tricks which actually work. I recommend this book.
