Nancy Dickmann is a Heinemann-Raintree author.

Beautiful photographs of real farms! The text was not as "predictable" as I'd hoped, but was appropriate.

Few pages, more a brief pamphlet.

I ordered this book for my Kindergarten classroom. We are doing a unit on farms and the food that is grown there. The kids loved the pictures.

Great pictures. Simple text. I added more info as we read it to spark conversation. Kids liked it!

Important farming words.

My urban students were clueless about where our food comes from (the grocery store when I asked). They thought strawberries grew on trees. This book was perfect for educating my students.

Great Book! My preschool students enjoyed it. I read it as part of our unit on farms. Wonderful photos!

Used this for Farm to School events to preschoolers thru 3rd graders. Children love to hear me read this book and give out samples!
