We have the "Good Night Colorado" book, which is one we read at bedtime a lot. I ordered this because I thought it would be a good way to introduce the holiday to my 20-month old. She loves it, even though she doesn't quite understand all of it, she gets excited about the things she recognizes in the illustrations and now even points out Santa & Rudolph. I am a big fan of this series and this is one book that will be put away with our holiday decor and brought out each year.

Great books for young children. Colorful and love the Good Night Series

We were introducing our 20 month old son to the concept of Santa and wanted a book to add to the rotation. We have another book from this series so I purchased sight unseen. Several of the pages seem pointless and don't have good pictures on them to discuss or name. But there are a few that he goes right to (elves in school, toys in the toy shop, Santa and Mrs having hot cocoa, & Santa and his reindeer dashing away) and that made the purchase worthwhile.

I have bought many of the "Good Night....." Books over the years for my grand children dependent on the occasion. They all love the way the stories are told. Then I saw this one and had to get one for each of them on two continents. They all loved them. For my little 3. year old in Holland it explained why Santa needed to fly. I have told many other grandparents about them who bought them too.

Wonerful book, very colorful and maintains my daughter's interest from start to finsih every time! She's just 15 months, and she loves to sit and look at the pictures by herself during 'quiet time'. We must read this book at least 4 times a day! By Christmastime, she will be ready for Santa!

This is a wonderful book

My grandson loves it!

Sweet Christmas story for little ones! Shows them all the elves and the hustle and bustle that goes on before Christmas.
