Mom loved this gift. These images exercise a part of the brain that apparently doesn't get accessed any other way. If you have trouble seeing the image, just let your eyes go out of focus a bit, as if you were starting to cross them... sometimes the 3-D picture will then "pop" into view for you. With practice, if your brain works that way, you can see them easily. My husband can't see them at all.

I have bought this calendar every year for the past 7 or 8 years now. I enjoy turning each month and viewing the new picture, I have become quite the expert at being able to focus in on the hidden pictures almost immediately. I feel these "exercises" have improved my overall eye health.

its great!

This has been my home calendar for the last 3 years. Everyone loves to stop in front of it and see the new design each month. Just the right size.

I am a real fan of all 3D pictures and if they come in a calendar, that is a plus. For those of us who really like paper calendars and don't rely exclusively on I-phones for information, this calendar is a real treat.

This is my eighth year to stare into my wall. I get a stereogram on my Facebook News Feed every day. Next year I will get another stereogram calendar with the MAGIC EYE endorsement.

Got these to be given at Christmas time. Not only are they really cool for the intended, but their guests can enjoy them, too, if they are displayed in a frequented room.

I was a little disappointed to find that not all the months have a 3D picture. It is pretty cool though.
