Science...For Her!

Synopsis

Megan Amram, one of Forbes' "30 Under 30 in Hollywood & Entertainment", Rolling Stone's "25 Funniest People on Twitter", and a writer for NBC's hit show Parks and Recreation, delivers a politically, scientifically, and anatomically incorrect "textbook" that will have women screaming with laughter, and men dying to know what the noise is about. In the vein of faux expert books by John Hodgman and Amy Sedaris, *Science...For Her!* is ostensibly a book of science written by a denizen of women's magazines. Comedy writer and Twitter sensation Megan Amram showcases her fiendish wit with a pitch-perfect attack on everything from those insanely perky tips for self-improvement to our bizarre shopaholic dating culture to the socially mandated pursuit of mind-blowing sex to the cringe-worthy secret codes of food and body issues. Part hilarious farce, part biting gender commentary, Amram blends Cosmo and science to highlight absurdities with a machine-gun of laugh-inducing lines that leave nothing and no one unscathed. Subjects include: this Spring's 10 most glamorous ways to die; tips for hosting your own big bang; what religion is right for your body type; and the most pressing issue facing women today: kale!!! Be prepared to laugh about anything in this outrageous satirical gem.

Book Information

Audible Audio Edition

Listening Length: 5 hours and 41 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Simon & Schuster Audio

Audible.com Release Date: November 4, 2014

ASIN: B00MH449Q8

Best Sellers Rank: #90 in Books > Audible Audiobooks > Humor > Parodies #1857 in Books > Humor & Entertainment > Humor > Parodies #3243 in Books > Audible Audiobooks > Science

Customer Reviews

The premise was excellent, many of the jokes were good, but the author wore it thin a few chapters in. Yeah, the girls with their tiny little girl-brains need big, complicated, man-science dumbed down for them in language they understand thing could have had so many variations, and the author used only a few ideas, and recycled them. I put it down after about thirty five pages. I was hoping for more sophisticated satire. I may pick it up again, in the hopes that the author was in a rut for a few

chapters, and got inspired with another comedic premise/variation.

I have to counter the extreme negative reviews here. This book is hysterically funny. Laugh out loud funny. Some people obviously don't get Ms. Anram's sense of humor and that's fine. Taste in comedy is subjective, see the career of Adam Sandler. NB: I'm told by someone who knows him from his stand-up days that he's a great guy and a wonderful friend but I have never laughed ONCE at his man-child humor. And Sandler is a multi-millionaire, so clearly there's room for disagreement here. But as the great Bette Midler once told me, eff 'em, if they can't take a joke. This is not misogyny as some claim, it is satire. Clearly, it flies WAY OVER the heads of the negative reviewers. Please don't let their very skewed comments put you off this hilarious book. Satire is not an endorsement of a point of view, as some here are saying. Don't listen to them! They are simply wrong. Buy this book! Now, I am not the target audience for this book as friends assure me I have a penis. But I have seen women in the wild and, occasionally, in captivity and I think any beautiful, intelligent woman will pee her pants laughing while reading this. That's not my opinion, it's a medical fact.

I have never written a review for anything before, on iTunes, , Yelp, whatever (that I can remember). Then I saw the travesty that is "Science...For Her!" having 3 out of 5 stars. Just know that someone giving this book 1 star is like an infallible litmus test for them being unfunny and lame. This book is hilarious and Megan Amram is great.

I was sooooo excited for this book to come out, but it's very underwhelming. It's just plain silly and not what it portrays itself to be.

I know I'm suppose to think this is funny...but it really isn't. She's trying way too hard.

The novelty wears off after a few pages. But she's a crazy funny lady.

Bought this for my S.O. for Christmas and she loves it. I love it too - Megan's one of the best humorists working today.

Bought this for my wife, heard her laughing and ended up reading most of it myself. A bit over the top, but nicely done.
