DK Readers L2: Eruption!: The Story Of Volcanoes

Synopsis

Re-jacketed, refreshed, and now with expanded content and interactive spreads to appeal to the newest generation of readers. Discover the amazing explosive and dramatic power of volcanoes in Eruption! with a thrilling subject that is sure to excite any developing reader. Additional spreads include making a volcano model, trying a quiz, and reading about some record-breaking volcanoes around the world. Level 2 is for children who have started to read alone, but still need some help. The books have more words than Level 1, slightly longer sentences that are still simple in construction, and slightly smaller type. Additional information spreads are full of extra fun facts and topic-related activities to make and do. The stories are slightly more complex than those in Level 1. Whether your child is learning how to read or wants to practice and improve his or her reading skills, DK Readers have the right story for developmentally appropriate reading at home. This innovative range of graded readers combines a highly visual approach with stories that children will want to read. Easy-to-read stories for beginning readers with word repetition progress to stories with rich vocabulary and more challenging sentence structure. There's a DK Reader for every child!

Customer Reviews

My six year old granddaughter read this book from the library, and LOVED it. She immediately went

online and looked up more information on Pompeii, and asked me to buy this book so she could have her own copy of it.

Priced right, published with quality materials, and filled with interesting facts, these DK readers are perfect for my budding readers at home. My five-year-old enjoys learning about the different topics with colorful pictures and fun details. I recommend these to other parents, especially homeschoolers or afterschoolers who want to feed their children's particular interests.

I bought this book for my niece and she absolutely loved it. She had me read it to her, then her mom, and then her grandma. The words used were good for the age group, and enough bigger words were used to challenge her. The bigger words even had tips for pronunciation. Overall, a great buy!

Great children's book

This is a wonderful book for those who are beginning to read by themselves. The pictures are very colorful and exciting to look at. It's a great book for my grandson and my student to enjoy!

Our son absolutely loves these books for bed time reading.

Five-year old son loves this book. He can read it by himself (though he asks for help understanding some of the concepts). We went to Kilauea, Hawaii last year, and I wish that we had this book then.

It had a lot of facts and it described a lot of what a volcano is. Pompeii is a sad story
