The words are great, but the cards themselves feel cheap. They should call these Flash'papers' instead of cards. They might make good kindling...

Love these vocabulary flashcards to help my second grade tutee. He has just flashed through the second and third grade vocabulary flashcards.

I would love to give these cards 5 stars but I cant for the price of the cards these cards are extremely flimsy feels like construction paper. However the concept is good so I dont regret my purchase.

too complicated for a 91 year old with brain injury

I purchased this for my son to practice during spring break to keep up on his studies. They are keeping him right on track with what he is learning in the 4th grade.

I have purchased 1st through 5th grades and we go over 10 at a time. has really improved my sons vocabulary. highly recommend.

Perfect set of cards to use for learning vocab.Very easy-understanding definitions and nice sample sentences

Excellent cards. great for keeping the kids on their toes during down time. I added a color coded sticker to each card to know the grade difference.
