Colombian Killers: The True Stories Of The Three Most Prolific Serial Killers On Earth

Synopsis

Colombian Killers explores the stories of three men who have forever tainted the lush fields of Latin America. This book narrates the sadistic acts of serial killers Luis Alfredo Garavito, Pedro Alonzo Lopez, and Daniel Camargo Barbosa. For these men, rape and murder were but the beginning of the horrors they inflicted upon the world. The fear their crimes inspire is not about their nature, the methodology, or even the victims. It is about who the killers themselves are. These men were motivated by perhaps the most chilling trifecta - sex, power and revenge. This book begins with three parts, each dedicated to one of these three monsters of modern-day Colombia. Once you've been edified with the general knowledge of the atrocities, we will delve further into the tiny details, the forgotten horrors, the thousands of ways that we as a society failed these men and, in so doing, shaped them into be the monsters they are known as today. Luis Alfredo Garavito, Pedro Alonzo Lopez, and Daniel Camargo Barbosa are among the most prolific serial killers in the world. Between them, they were convicted of 329 murders, but it's believed that the number they committed is over 750. Colombian Killers is not for the faint of heart, nor for the feeble of spirit. Be very sure you want to know what you are about to hear, because if you can be sure of nothing else, be sure of this: You will never forget what you are about to hear.

Customer Reviews

Loved this book I'm a true story/true crime junky! love how it revealed what happened to make them sociopaths Like I heard all my life and still say today IT TAKES A VILLAGE (or town) TO RAISE A

CHILD

First of all, I want to point this book is not for everyone, while the story is not very gruesome it can give you a good idea of what some people are capable off. It's not just a narration of the events but also, provide some insight of the tipping points which puts those men on their road to perdition. A nice book for anyone who enjoy this kind of stuff but if you are in for more gore don't count on it.

This book is a fantastic glimpse into the inner world of Colombian cold hearted serial killers. Each of their stories has unique lessons that you can learn from. Though, there are commonalities in each of the stories. The most important issue is that each of their consciences has been completely seared. When they kill, they feel nothing for the victims. This reduction of human life to nothing more than something to be traded and terminated as desired is a key issue to each of their stories. It is hard to understand how each of these people could become so evil, but this book does a wonderful job breaking down these real life stories!

I was blown away by this book! It is a deep dive into the minds of three of the most prolific serial killers ever. This is actually better than watching a documentary about serial killers as the author really takes the time to go into what makes these crazy killers tick. It is a chilling and yet fascinating look inside the dark side of humanity.

Three very twisted men that were included in this book. I have always been a fan of true crime and/or serial killers. I haven't heard of these three before. What was a shame is the amount of prison time these monsters received. Very good book.

A great book about three of the most sadistic child murderers from south america. It compiles the most information I've seen yet on these relatively unknown monsters. At a great price as well. Great read, Ryan. Can't wait for the next one.

The plot line is intriguing and keeps the reader guessing until the end. I loved it and can't wait to read the next in this series... The stories in this volume were not on u.s. news... Truly grizzly men...

I expected a bit more detail perhaps because I'm used to reading books where the author gets to speak with the offender. Over all, a good, informative read on what's truly out there. Morale of the

story? Stay vigilant of yourself and family, just because these men were born years ago doesn't mean history doesn't repeat itself. Good job Ryan. For stars just because I expected more detail.
