Age Range: 4 and up

Grade Level: Preschool and up

Customer Reviews

School Zone Publishing Company began as The School Zone Learning Center in 1972. The Learning Center was a retail teachers supply outlet, specializing in sales to teachers, with two stores in Grand Rapids, Michigan. About 1974, schools instituted changes in educational methods that affected the home and schools. Changes included introducing new teaching methods in math and English and eliminating workbooks provided on a shared basis for home use. With these changes, parents experienced difficulty finding educational material for use at home. Local parents turned to the Learning Centers, requesting workbooks and other at-home teaching aids. In response, the Centers formulated six workbooks and printed 1,000 copies of each. The books sold out in six months. An expanded workbook series was developed and received equally enthusiastic acceptance. School Zone Publishing Company was incorporated in 1979. A new line of workbooks had been written and illustrated by late 1979. In January 1980, the line was printed and School Zone began operations. Market response was extremely favorable. The product line has expanded

yearly and currently includes almost two hundred educational products.

My 3 year old LOVED doing this little work book. I originally purchased it b/c I needed something to keep my young child entertained while I worked on homework with my older child. This did the trick. It was easy enough for her to do it on her own, so I could help the older child. But, she felt as if she was doing school as well. I know of the reviewers think the book is for a younger age group than what the is officially printed. I can say it did work well my 3 yr old.

3 year old loves it and its the perfect addition to our homeschool preschool set up!

Great learning tool. My daughter loves it!

My boys love these books

This workbook is great for parents who want to help their children prepare for kindergarten. Although children will not be able to complete this workbook without the help of an adult (to read and explain the directions), the content of this book is quite enjoyable for parents and young children alike! Same or Different allows children to start identifying common items that they are familiar with in an enjoyable manner using recognizable items and animals.

My three year old daughter literally blew through this in one day, she had so much fun! The pictures are all brightly colored and she could figure out what to do on most of them even without reading the directions. We have purchased and done lots of workbooks, and this is one of our favorites!!

So far it's good

This is my son's favorite workbook! We do a lot of workbook's and he loves this one. Would recommend.
