The Attractor Factor: 5 Easy Steps For Creating Wealth (Or Anything Else) From The Inside Out (Coach Series)

Synopsis

"A breakthrough practical spiritual guide to achieving all your goals For the first time ever, one of the rarely discussed formulas for building wealth and achieving success in all areas is revealed in The Attractor Factor. Popular marketing and spirituality guru Joe Vitale argues that those who try hard and fail need to remake their inner beings in order to easily attract success, wealth, and happiness. Many people do the right things but get the wrong results; it's not so much what they do, as what they are inside. The problem for most people is self-sabotage. In five easy steps, Vitale shows anyone how to become happier and more successful by doing a few simple things differently every day. Part wealth-creation guide, part spiritual road map, part autobiography, The Attractor Factor offers inspiring, effective answers for anyone who wants to feel better, be happier, get wealthier, and get ahead in life. Joe Vitale (Wimberley, TX) is President of Hypnotic Marketing, Inc., a marketing consulting firm. He has been called "the Buddha of the Internet" for his combination of spirituality and marketing acumen. His articles are widely read and his professional clients include The Red Cross, PBS, Hermann Children's Hospital, and many other small and large international businesses. His past books include There's a Customer Born Every Minute and The AMA Complete Guide to Small Business Advertising.

I only gave this book 3 stars because easily half of it is nothing but case histories saying how wonderful the system is. That's boring. I wanted to get to the nuts and bolts of the system and not just get the used car salesman pitch. This book has some extremely valuable information in it. The problem is you have to wade through tons of blah, blah, that does NOT help teach you exactly what to do. I like Joe Vitale and I'm actually going to buy more of his books. It's too bad that he has been doing this for so long that he has lost touch with reality to the point where he thinks he needs to go on a long sales pitch rant every time.

This book is a great read and contains eternal truths about the Law of Attraction and how it can be

used to manifest money or anything that you can make a part of your belief system. This author understands the Universal Law well, and conveys his understanding within the pages of this book. I always look forward to reading anything he puts out because it's always uplifting and helpful. Review written by Eddie Coronado, author of the Kindle and paperback book "Manifest Your Millions: A Lottery Winner Shares his Law of Attraction Secrets"

I saw Joe in "The Secret" and still argued with myself that clearing and making a gratitude list isn't going to change anything. I WAS WRONG! The Attractor Factor gives you real tools to use. You can have very real results with the information in this book. There are 5 actions you can take to turn things around and start living happier circumstance. After purchasing this book I would suggest you get on his emailing list. Why? Because he will send you offers of other people he knows are honest. This is all my opinion and I am not suggesting Joe Vitale is honest himself, but he is. Joe lived through homelessness himself and brought his station in life because of the books he offers. Each time he grows, it is my estimation that he writes a new book about how you can learn what he went through. Joe Vitale improves peoples lives by his own searching and taking action so we can all benefit. I definitely recommend any of this material to all who choose to improve their situation in life to the better.

This book is full of great value throughout. The value of this book goes beyond the 5 steps. I highly recommend this book.

This book will teach you 5 easy steps for creating wealth from the inside out. However, Joe Vitale, the author of this book, suggests that we don't need to practice the 5 steps. The secret is, "Be Happy Now". That's to say, if you can be happy right now, in this moment, you will have achieved whatever you want. Why? Because underneath everything you say you want is the desire for happiness. The basis of this assertion is the proposition that outward events are simply the results of what we have already done outside ourselves. Your magnetic point of attraction will be always toward what you want. As FW Sears put it, "Within each life lies the causes of whatever enters it". In any case, the 5 steps are: (1). Know What You Don't Want; (2). Select What You Do Want; (3). Clear all Negative or Limiting Beliefs; (4). Feel What It Would be Like to Have, Do, or be What You Want; and (5). Let Go as You Act on Your Intuitive Impulses and allow the results to manifest themselves. In summary, Mr Vitale likens the achievement of a goal like planting a seed in your subconscious mind. And just follow your inner promptings. This is similar to laws 4,5 and 6 of

Deepak Chopra, "The 7 Spiritual Laws of Success: A Practical Guide to the Fulfillment of Your Dreams" (San Rafael: New World Library, 1994). Digest this book and you will get whatever you want.

I've read a bit of Joe's work and he is great in general, very intelligent guy on top of life. This book is proof that Joe can really help you in manifesting what you desire. I love this book! I highly suggest you read this and Attract Money Now! his free ebook that is also a best of his in my opinion. I love his miracles coaching program too. I can't get enough Joe. He amazes me.

fantastic book

I dunno, I mean I believe in some crazy stuff but I think this guy is a little too much clouds and rainbows. There is good information and it won't hurt to read it, however, keep in mind the action part of LOA. (To his credit he mentions this multiple times). Just keep your feet on the ground but always look to the sky
