Master Spanish Through Reading [Spanish Edition]: From Elementary To Intermediate: Boost Your Vocabulary With Over 290 New Words And Phrases

Synopsis

Master Spanish Through Reading. Fast, Fun, and Effective Method for Massively Improving Your Spanish Vocabulary and Comprehension. Do you want to move up from the elementary to the intermediate level? One of the most effective ways to learn new vocabulary and grammar is by reading. When learning a new language, it's difficult to find real reading material of the right level. Essentially, it needs to be easy enough so you can get started but challenging enough to ensure that you keep learning new and useful vocabulary at a manageable pace. Also, the only way to really progress with a language is to immerse yourself in it. This audiobook is 100 percent in Spanish, but is written in a way that is accessible from the start. By the end, you'll not only be a lot more confident with your language skills, but you'll literally be thinking in Spanish. The benefits of using this book include: Twelve engaging articles written in a simple style to help you learn naturally. Over 290 new words and phrases introduced in context. See how the language is used in real life. All articles are written by a native Spanish speaker. Every new word is explained in simple Spanish. By learning Spanish in Spanish, you will learn a lot quicker. You will effectively begin to think in Spanish, and this is a huge step toward your goal of fluency. Hundreds of example sentences, so you can learn how to actually use the vocabulary. Comprehension questions. Make sure that you fully own what you have learned by testing yourself at the end of each article. If you are out of the beginner stage and trying to move from elementary to intermediate, then this book is perfect for you. Each article is short enough to be manageable but challenging enough that you will actually feel your Spanish improve as you progress through the book. Please note: This audiobook is in Spanish.

Best Sellers Rank: #59 in Books > Audible Audiobooks > Language Instruction > Spanish #964 in Books > Reference > Foreign Language Study & Reference > Instruction #7071 in Books > Libros en español

Customer Reviews

At the age of 83 I have been teaching myself Spanish. At my age learning is hard work. I discovered that I could read this book quite well and it provided a relief from the learning by rote as well as an incentive to work harder. It is a good way of learning to think in Spanish and I need more of his books. It must have been no easy task for the author to simplify the language for a beginner like me to be able to read it fluently and easily. I would recommend it to any beginner as an outstanding learning aid.

This book is a collection of articles written by native Spanish speakers. The entire book is written in Spanish which I found nice because it kept me focused on my target language. Each article is broken up into 4-6 sections which makes it easier to digest for the non native speaker. There are key words following every section which will help to improve your vocabulary as well as help you to understand the basic structure of an actual Spanish dictionary. If you are reading this on a kindle, then you can highlight words, phrases or even whole passages and see a search engine translation. I used the bing translator for this text as it seems to be better than googles at the current moment. I enjoyed reading the text in Spanish first, then reading through again, translating to English as I read, and finally highlighting the text and playing the translation while I read the text in Spanish. I believe I have learned some new Spanish words, some new synonyms for words I already knew, and some new phrases that will help me to become fluent in the future.

What I like about this book is that it takes selected vocabulary and gives the definitions in Spanish not English. There is no English in the book to fall back on as a crutch. This is really important for any of us learning, because most materials have so much English intermixed that your brain is start translating all the time. Each section has questions for comprehension. The only reason why didn't give this five stars as I didn't find all the topics the most interesting. If you really want to take the material of this book to a bonus level, then read it out loud. That way you can practice your pronunciation and it helps your brain tackle longer sentences.

I am learning Spanish, and this book was wonderful. I also recommend downloading the audio version on audible. It makes for a productive commute to work. Another benefit is that I can read along while I am also listening to the audible version which is a huge benefit!

I bought this book in conjunction with the audiobook, and I read and listen at the same time. The

articles are interesting and the narrator's voice is pleasant and easy to understand.

This was a great book to gain confidence in your comprehension abilities. It really helped me start thinking in the language. I have now downloaded several other books solely in Spanish and will slowly begin reading these as well. Great starting point and very helpful!!

This is a worthwhile book for Spanish learners. I also bought "Spanish: Short Stories for Beginners - 9 Captivating Short Stories." "Master Spanish Through Reading" has varied subject matter and was more difficult, with more unfamiliar vocabulary, but it was not beyond me. I recommend it.

This was fun and interesting. The articles are current. This is not for real beginners; it is really for intermediate readers.
