Flower Spirits 2016 Wall Calendar

Synopsis

One of only a few radiographic photographers practicing today, Steven N. Meyers uses x-ray photography to capture the texture and details of flowers in invisible light. To obtain these effects, invisible to the human eye, Steven uses supersensitive, large format film. His luminous images have been enhanced with digital color.

Customer Reviews

I had bought a similar calandra before and enjoyed it so much I saved the pictures and framed my favorites to use in my bedroom. When we moved I needed to fill more wall space quickly and inexpensively and so I ordered another. It was exactly as I expected. Thank you!

I like this so much, I buy it every year.

This is my fourth edition. I gave one to my seven year old grandson for Christmas last year after he saw mine and wanted one of his own..

Love this artist and I buy his calendar every year

This a beautiful calendar; I am fascinated by the technique. I have been buying it for several years. Always lifts my spirits to look at the amazing images.

I bought for someone else and they loved it.

I am in love with these pictures! All the grace of a standard flower picture, plus the scientific side that enhances the image.

This was a gift for a florist's grand-daughter who knows all about flower fairies and spirits.. A can't-miss choice!
